

My name is Matthew Scott and I am a UI/UX Designer who is passionate about both designing and developing user friendly applications. With my mix of my design and development skill set I believe that I would be a perfect fit for the Web Developer position.

During my career I have had the opportunity to work on various types of web applications, which I have taken on the role of designer or developer depending on the needs of the project. For designing I have experience working with the Adobe Creative Suite, HTML, and CSS. For developing I have worked on mobile and web applications using React and React Native, PHP, .NET, and C#.

I would welcome the opportunity to meet you to discuss my application in more detail. Feel free to contact me at 774-526-1672 or email me at [matt.taylor.scott@gmail.com](mailto:matt.taylor.scott@gmail.com). You can also view my portfolio at [mattscottdesigns.github.io/portfolio](http://mattscottdesigns.github.io/portfolio). Thank you for your time and consideration.
